the privatization of large state owned enterprises is one of the most radical policy developments of the last quarter century right wing governments have privatized in an effort to decrease the size of government while left wing governments have privatized either to compensate for the failures of state owned firms or to generate revenues in this way privatization has spread from europe to latin america from asia to africa reaching its zenith with central and eastern europe's transition from socialism to capitalism in many countries state ownership has been an important tool in bringing cheap water energy and transport to poorer segments of the population in other instances it has sponsored aggressive cutbacks corruption and cronyism privatization successes and failures evaluates the practices and results of privatization in eastern europe africa latin america and asia featuring the world's leading economists and experts on privatization this volume offers a broad and balanced analysis of specific privatization projects and uncovers some surprising trends partial privatization for example tends to be more widespread than one might think and the effects of privatization on efficiency are generally mixed but rarely

negative also while privatization appears uncontroversial in competitive sectors it becomes increasingly complex in more monopolistic sectors where good regulation is crucial privatization concludes with alternative frameworks for countries in africa and other regions that seek to develop privatization policy and programs

this is an open access book ndieas 2024 discussions on environmental challenges frequently center around human dependence susceptibility and resilience yet the subject matter of the present anthropological discussion regarding the ecological framework would mainly concentrate on spatial advertising and scientific investigation in this symposium the focus will be expanded to include human anthropology as a fundamental element of the political notion of environmental sustainability and the foundation for effective local national and global actions humanity s survival entirely depends on the environment however we further rely on sociopolitical and legal frameworks which are open to capture misdirection confusion with this viewpoint in mind the panel discussion will look at how neoliberalism both international and national legal and political frameworks and other factors have influenced how we perceive the world around us it is going to capitalize on environmental anthropology s observations as well as additional crucial elements to evaluate the spread of sustainable solutions to environmental issues and look at the ways in which forces like globalization and technological advancement might give people a false sense of invulnerability while significant the assumptions of mitigation as well as adaptation require as well to be looked into the expansion of industries greater manufacturing and consumerism are goals of globalization and another neoliberal socio economic reconfiguration which has a tendency to encourage human abuse of the environment and reduce our ability to respond to issues related to the environment
